## Beautiful Handmade Quilt

This quilt is called "Links" and measures 48" by 66", and was hand made by Karen Dean. It is comprised of 2,880 individual pieces from 20 different fabrics, required over 250 hours of effort, and traveled to our Mardi Gras event all the way from San Diego where she lives.

Karen is an advocate of education for children and young adults and has been for many many years. She believes strongly that young adults need to learn through education and develop a greater sense of self worth. She and her husband have four children and seven grandchildren and so has come to appreciate the value and benefits that come from progressing through the school system and ultimately obtaining that ever important high school diploma.

To provide support for **Communities In Schools**, Karen has created this quilt and is hoping it will provide much needed support to the kids in Washington, and is hoping it will go to a loving home. Karen has been quilting for almost 20 years, and was inspired to begin this craft through the quilting efforts of her daughter, Jenny. Karen collaborated with Janiel Miller of Temecula who did the quilting.

Thanks to: Mrs. & Mr. Jenny & Tim Haser
